PROFESSIONAL EXPERIENCE

CET Sandbox — U.S.–Israel defense-tech partnerships · Tel Aviv, Israel
Manager, U.S. Defense-Industrial Base Partnerships — *October 2025 – Present*

- Scout Israeli defense-tech startups for U.S. primes and mid-tier defense contractors and broker the introductions
- Write and publish the weekly defense-tech newsletter to 600+ Israeli founders, investors, and ecosystem members, with an average open rate of over 50%; built AI agents that handle the drafting and solicitation sourcing
- Work hands-on with 100+ Israeli defense-tech startups entering the U.S. market: connecting them with U.S. defense contractor buyers and supporting U.S. entity setup and regulatory questions, partly as paid consulting
- Source and manage sponsorship partnerships with law firms and go-to-market consulting firms (annual partnerships and the U.S.–Israel Defense-Tech Summit, spring 2027); built the email and LinkedIn prospecting sequences
- Supported two full-day programs in Washington D.C. for Israeli defense-tech startups and U.S. stakeholders, sourcing the startups and handling logistics and materials (inaugural forum: 30+ startups, 100+ attendees including major primes and Department of Defense officials)

Wisetack — Embedded financing for home services · New York, NY
Strategic Partnerships Associate — *February 2024 – October 2025*

- Launched and scaled 20+ embedded-financing partnerships with vertical SaaS platforms through API integrations. In 2024 that meant $1.5M+ in revenue and $30M+ in loans issued
- Owned the full partner lifecycle: API integration scoping with partner developers, product feedback into roadmap, QA/testing, GTM execution, and post-launch optimization
- Led multi-channel GTM campaigns (email, in-app placements, webinars, direct sales) that acquired and activated 2,000+ customers in 2024, with top partners reaching 50%+ activation
- Trusted to own 2+ company-wide OKRs each quarter for launching new partner features and driving usage
- Analyzed feature-adoption funnels to reprioritize product work, moving roadmap items up 1–2 quarters on multiple occasions; secured first-adopter partners for new-feature pilots by modeling expected outcomes

Senior Business Development Associate — *July 2022 – February 2024*

- Exceeded sourcing targets every quarter (3x once, 2x three times); built the home-services franchise strategy that produced partnerships with 26 franchisors

SYSTEMS I'VE SHIPPED (solo, AI-agent-augmented)

AI Health Coach. Garmin sleep, resting HR, and training load flow into a self-hosted system of record; an always-on LLM agent reads the night, checks the plan and weather, and texts a fueling-and-training briefing at 6:05 every morning. Has coached me daily since a weekend build. Wearable-agnostic ingest layer, Garmin today. *Python, SQLite, LLM agents*

AI Workout DJ. Engine reads live heart rate, GPS, and planned-workout structure from a custom Garmin Connect IQ field and lands the drop where the hill or interval starts. TypeScript conductor ported to Swift with a parity suite replaying real sessions. *TypeScript, Swift, Monkey C*

GPT from first principles. Tokenizer, attention, training loop, and supervised fine-tuning into a small chat model, with a plain-language explainer for every mechanism. *Python, PyTorch*

EDUCATION & LEADERSHIP

Washington University in St. Louis — St. Louis, MO
B.A. Economics, Minor in The Business of Sports · GPA 3.7, Dean's List · Men's Club Lacrosse — *Class of 2022*

Ice Hockey in Harlem — New York, NY
Volunteer Coach, 8U · Weekly practices in Central Park; contributed to the team's first-ever playoff victory — *October 2024 – June 2025*

SKILLS & INTERESTS

Program & partner operations: cross-functional launch management, stakeholder alignment, GTM execution, OKR ownership, funnel analytics, Jira, Trello, HubSpot, Salesforce

AI-native workflow: Claude Code agents on scheduled jobs run my newsletter sourcing, outreach sequencing, health-data exports, and job-posting verification; TypeScript, Python, SQL, Next.js, API integration design

Interests: Triathlons, trail running, hiking, writing, reading biographies, learning Hebrew
