

Ethan Roberts

Boston, MA (home) • relocating from Tel Aviv • available November 2026 • eroberts7799@gmail.com • ethanroberts.dev (live demos) • github.com/eroberts7799

I run partnerships, which in practice means getting people who don't report to me to ship on the same date. At Wisetack that was partner companies' engineers integrating with our API on schedule, 20+ times. At CET Sandbox I source and manage sponsor partnerships, including for a 300-company defense-tech summit, and write the weekly defense-tech newsletter. Outside work I build the health software I live with. Boston is home and I'm available in November. I'm obsessed with my own fitness, training, and recovery, and I love building and launching products for it.

PROFESSIONAL EXPERIENCE

CET Sandbox

Manager, U.S. Defense-Industrial Base Partnerships

U.S.-Israel defense-tech partnerships • Tel Aviv, Israel

October 2025 – Present

- Source and manage U.S. sponsorship partnerships (annual partnerships and the U.S.-Israel Defense-Tech Summit, 300+ Israeli defense companies) with law firms, prime and sub-prime contractors, and defense consultants; built the email + LinkedIn sequencing behind the prospecting
- Built AI agents that take over weekly recurring work, including drafting and formatting the newsletter and gathering solicitations; develop and maintain the CET Sandbox website, the hub for solicitation updates, webinar content, event promotion, and vendor listings
- Write and publish the weekly defense-tech newsletter. 600+ founders, investors, and ecosystem members get it, and more than half open it every week
- Supported CET's inaugural Washington D.C. forum (30+ Israeli defense-tech startups, 100+ U.S. stakeholders including major primes and Department of Defense officials): sourced the Israeli startups and handled logistics and materials

Wisetack

Strategic Partnerships Associate

Embedded financing for home services • New York, NY

February 2024 – October 2025

- Launched and scaled 20+ embedded-financing partnerships with vertical SaaS platforms through API integrations. In 2024 that meant \$1.5M+ in revenue and \$30M+ in loans issued
- Owned the full partner lifecycle: API integration scoping with partner developers, product feedback into roadmap, QA/testing, GTM execution, and post-launch optimization
- Led multi-channel GTM campaigns (email, in-app placements, webinars, direct sales) that acquired and activated 2,000+ customers in 2024, with top partners reaching 50%+ activation
- Trusted to own 2+ company-wide OKRs each quarter for launching new partner features and driving usage
- Analyzed feature-adoption funnels to reprioritize product work, moving roadmap items up 1-2 quarters on multiple occasions; secured first-adopter partners for new-feature pilots by modeling expected outcomes

Senior Business Development Associate

July 2022 – February 2024

- Exceeded sourcing targets every quarter (3x once, 2x three times); built the home-services franchise strategy that produced partnerships with 26 franchisors

SYSTEMS I'VE SHIPPED (solo, AI-agent-augmented)

AI Health Coach. Garmin sleep, resting HR, and training load flow into a self-hosted system of record; an always-on LLM agent reads the night, checks the plan and weather, and texts a fueling-and-training briefing at 6:05 every morning. Has coached me daily since a weekend build. Wearable-agnostic ingest layer, Garmin today. *Python, SQLite, LLM agents*

AI Workout DJ. Engine reads live heart rate, GPS, and planned-workout structure from a custom Garmin Connect IQ field and lands the music drop where the hill does. TypeScript conductor ported to Swift with a parity suite replaying real sessions. *TypeScript, Swift, Monkey C*

GPT from first principles. Tokenizer, attention, training loop, and supervised fine-tuning into a small chat model, with a plain-language explainer for every mechanism. *Python, PyTorch*

EDUCATION & LEADERSHIP

Washington University in St. Louis

B.A. Economics, Minor in The Business of Sports • GPA 3.7, Dean's List • Men's Club Lacrosse

St. Louis, MO

Class of 2022

Ice Hockey in Harlem

Volunteer Coach, 8U • Weekly practices in Central Park; contributed to the team's first-ever playoff victory

New York, NY

October 2024 – June 2025

SKILLS & INTERESTS

Program & partner operations: cross-functional launch management, stakeholder alignment, GTM execution, OKR ownership, funnel analytics, Jira, Trello, HubSpot, Salesforce

AI-native workflow: Claude Code agents on scheduled jobs run my newsletter sourcing, outreach sequencing, health-data exports, and job-posting verification; TypeScript, Python, SQL, Next.js, API integration design

Interests: Triathlon, skiing, trail running, hiking, surfing, youth hockey coaching, learning Hebrew
